

Letter of Recommendation

21.10.2024

To Whom It May Concern,

I am writing to support Yassir Boulaamane in his application for a postdoctoral position. I have known him for the past few years, first through our community and later as an attendee of a machine learning course I taught, which focused on applications to small molecules. During this time, I have seen his enthusiasm for learning and his commitment to making the most of available resources.

In the course, Yassir Boulaamane was a diligent and engaged participant. He approached the material with curiosity and worked hard to understand the concepts, often taking the initiative to ask insightful questions. While we did not collaborate on any research projects, he demonstrated a strong capacity for learning and a genuine interest in advancing his knowledge in the field.

Based on my experience with him, I believe Yassir Boulaamane would be a valuable addition to your research group. He is motivated and hardworking, and I expect he will approach new challenges with the same dedication I observed in my interactions with him.

If you have any questions or need additional information, please feel free to contact me at pankaj@futuretx.ai.

Sincerely,

A handwritten signature in black ink, appearing to read 'Pankaj' with a stylized flourish at the end.
